How to reach out to a doctor?

TELL US ABOUT YOUR PROBLEM

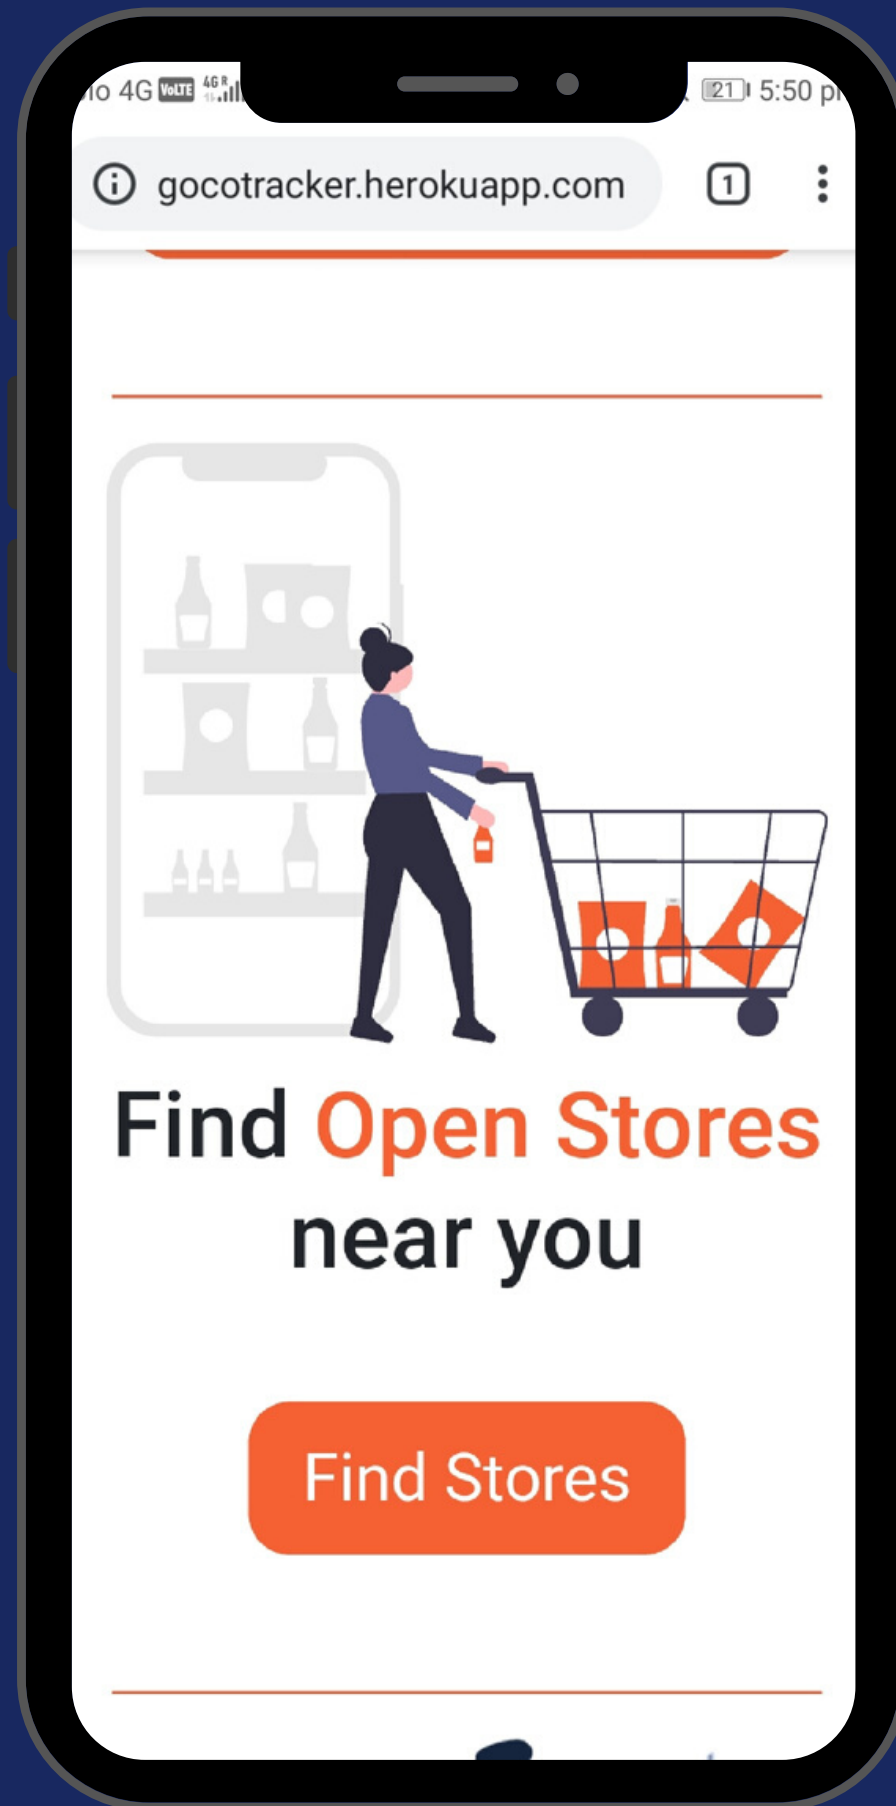

The user will be asked to provide us with their details and the symptoms that they are facing.

GET A DOCTOR ASSIGNED TO YOU

The admin will work as a bridge between the user and the doctor. When the user inputs his information he will connect the user to the nearest doctor.

MEET DOCTOR

The user will go to the doctors' clinic and get a check-up done and then the doctor will update the database if the patient tests positive for COVID-19.

Get Groceries

OUT OF STOCK?

Working with us will help the sellers too.

LOOKING FOR GROCERIES?

Just tell us what you need and we will find it for you.
